

J.E.S. HARDWARE SOLUTIONS **CAPABILITIES STATEMENT**

J.E.S. Hardware Solutions, founded in 1994 is an Native American-owned, Small Disadvantaged and Florida Minority Business(OSD) company based in Hollywood, FL, is well-recognized for its expertise as a designer of advanced technology and engineered computing systems using engineered high speed Solar powered wireless networks, Solar Multi-camera trailers, Solar Wireless MESH, Solar HD cameras and wide area commercial wireless networks. (Note All DOD sub-contractors are eligible for a %5 rebate from the DOD for all JES products/services)

NAICS 541512 - Computer Systems Design Services, 518210 - Data Processing, Hosting, and Related Services, 541330 - Engineering Services, 334112 - Computer Storage Device Manufacturing, 517210 Wireless data internet data providers

JES is transforming the wireless hardware industry by becoming strategic Partners with organizations and manufacturers using a tailored approach to Consolidate and standardize materials management practices and processes using Commercial off-the-shelf (COTS) products.

Our product and service core competencies include the following:

- Wireless Engineering Services
- Build to print or designed single purpose wireless Systems
- Commercial wireless
- Disaster network systems and Surveillance
- Solar powered wireless networks
- Solar powered Surveillance systems
- Solar Powered Camera Trailers
- Solar powered Thermal Cameras
- Long range Solar powered Wireless Bridges and Camera Bridges

JES working with engineers and buyers has designed many wireless networks that fit customer's geographical needs. This includes projects in the Hawaiian Islands to bridge mountain tops (solar) and also mountain top bridges in Colorado (solar). Finally; a private charity needing a Solar HD PTZ (Pan Tilt Zoom) camera to observe an Osprey Nest about 16 feet across day and night.
